CANADIAN SUMMARY.

Our files from the Dominion of Canada are to the 6th ult. \$500,000 of the Dominion stock has already been taken at par. On the 8th Feb. the thermometer stood 40° below zero at Ottawa! Sir Narcisse Belleau, the Lieutenant Governor of Quebec, has had an extension of the term of his administration of five years confirmed by the Queen. This act on the part of Her Majesty is understood to have given very general satisfaction throughout the Province of Quebec. A masquerade skating ball came off with great éclat on the 3d Feb. at Victoria Skating Rink, Montreal. About 500 ladies and gentlemen were in fancy costume and hundreds of admiring spectators were present. A highly reliable correspondent writing to the *Montreal Gazette*, from Perth, Ontario, says:—"The cold weather of this winter has stopped almost all mining operations, except Conder's red hematite, which has been for some weeks past coming in at the rate of 50 tons per day and is likely to prove a large business. Gold prospecting was going on all last season through the whole country between this and Madoc. I am satisfied that this Central Canada is yet to be one of the greatest gold and silver producing regions in the world. Though free gold appears to be rare, yet there are dozens of localities near here where great quartz veins, charged with pyrites of iron and sometimes other sulphurets, cross the country, and in almost every instance where an analysis of the surface rock has been made, the precious metals are shown to exist in quantities of from \$10 to \$25 per ton, and I think the average rate is about \$15. If the new Wyckoff and other processes are really as good as they are said to be for treating ores containing sulphur, a very wide field is open for capitalists. Time will, however, show. Cheese manufacture is being very largely carried on in Ontario. In one day 35 waggons loaded with 40 tons of cheese arrived at the Grand Trunk station, at London, for shipment to England, having been purchased by Mr. Furness, of Liverpool, at the extensive dairy establishment of Harriestonville, East Middlesex. The Reform members of the Ontario Legislature had a banquet at the Queen's Hotel, Toronto, on the 2d March. The Hon. George Brown was a guest, and delivered a long and able speech. Very severe snow storms prevailed throughout the Provinces of Ontario and Quebec in the beginning of March, completely suspending railway travel in many places. The cold was very severe. A performance was given at the Royal Lyceum, Toronto, for the benefit of the Nova Scotia fishermen, which produced \$168, the expenses being \$170, or \$2 over receipts! Mr. Alexander Somerville, better known in Canada by the nom de plume of "The Whistler of the Plough," is going to England to publish a book on Canada. The Hon. Robert Spence died on the 3d March, at Toronto. He was for several years a member of the Canadian Government, previous to 1857, since when he has occupied the lucrative and important position of Collector of Customs at Toronto. The *Nor Western* of January 19th understands that private enterprise will put a steamer on Lake Winnipeg next summer, for the purpose of supplying the settlement with fish and lumber, also that the recently surveyed land near Pembina is to be at once opened for settlers, in which case we may expect much of the rich agricultural land of the Pembina valley to be at once taken up.

PRINCE ALFRED AND THE TROWEL.—In Melbourne, the Duke of Edinburgh, amid the usual imposing ceremonies, laid the first stone of a new city hall. The *London Times* correspondent relates the good humoured perplexity of the royal apprentice. The architect approached the Prince, and opened a gorgeous case, with the Royal Arms worked on the top of it in gold thread, drew thence the dazzling tool. This was a trowel of solid gold, the rose, thistle and shamrock being beautifully worked in relief about the handle, which was also near its junction with the blade encircled by rows of diamonds, turquoises and pearls. The Prince's usually grave-looking face relaxed into an amused smile as he took the implement in hand, and when the dainty patch of mortar was pointed out to him on a small, carved black-wood mortar-board, he seemed to think it almost a desecration of the glittering thing—which was, of course, to be thereafter his property—to soil it with common lime and sand. He daintily took up as much mortar on the point as might cover a half-crown, and as daintily dabbed it down where the architect directed the dabbing. A good humoured laugh—but not vulgarly vociferous—came from the roofs of the surrounding houses, provoked, I suppose, partly by the incongruity between the work and the workman, and partly by the tenderness and undisguised respect which His Royal Highness evidently entertained for the trowel.

MELANCHOLY, BUT TRUE.—John Bull (the paper) takes the liberty of lecturing the Queen for the patronage Her Majesty bestows on the Kirk of Scotland, and it intimates that the Sovereign is little better than a Dissenter. That charge is too awful to be spoken about. But Punch may be allowed to remind the John Bull that, if the Queen did not when in Scotland patronize the Kirk, she would be not only almost, but quite a Dissenter. We wonder whether John Bull can realize the fact that in Paris he would be a foreigner. It may be very humiliating, but England isn't everywhere. English persons would make fewer mistakes if they could manage to acquire this idea.—Punch.

THE following changes are understood to be on the tapis:—Colonel Stephen John Hill will, it is said, be promoted to the Governorship of Demerara. He will be succeeded by Major Robert M. Mundy, the present Governor of Grenada. Governor Francis Hincks of Demerara will probably succeed Sir I. P. Grant, of Jamaica, who wishes to be relieved.

ST-1860-X.

A Great French Physician says: "More than half the disease in the world comes from neglect to fortify the system against changes of climate, weather and food. The great secret of health is to keep the condition of the Stomach and Blood regular and uniform, so that changes from Heat to Cold, from Dry to Damp, etc., cannot upset the machinery of the Body, and breed disease."

Now, it is a fact, positive and well known, that there is a special bulwark and assistant for the Stomach as

PLANTATION BITTERS.

This splendid Tonic is now used by all classes of people for every symptom of a "Stomach out of order." The secret of it is this: Plantation Bitters are certain to correct the juices of the Stomach, set all its machinery at work, and enable it to resist and throw off the approaching danger. The tendency of the operations of Nature is always towards purity; all she needs is a little assistance at the proper time. How much more restful and amiable it is to help her along with a gentle yet powerful Tonic, than to deluge and weaken and deplete her curative process with poisonous drugs and fiery mixtures which only stupefy and plant the seeds of disease and death.

Important Certificates.

"I owe much to you, for I verily believe the Plantation Bitters have saved my life."
Rev. W. H. WAGGONER, Madrid, N. Y.

"I have been a great sufferer from Dyspepsia, and have been cured by the Plantation Bitters."
Rev. J. S. CARRISON, Rochester, N. Y.

"I have given the Plantation Bitters to hundreds of our disabled soldiers with the most astonishing effect."
G. W. D. ANDREWS,
Superintendent Soldiers' Home, Cincinnati, O.

The Plantation Bitters make the weak strong, the languid brilliant, and are exhausted Nature's great restorer. The public may rest assured that in no case will the perfectly pure standard of the PLANTATION BITTERS be departed from.

Every bottle bears the fac-simile of our signature on a steel plate engraving, or it cannot be genuine.

Any person pretending to sell PLANTATION BITTERS in bulk or by the gallon, is a swindler and impostor. Beware of refilled bottles. See that our Private Stamp is UNMUTILATED over every cork.

Sold by all Druggists, Grocers and Dealers throughout the world.

FEELS.

LYON'S MAGNETIC INSECT POWDER is sure and certain death to everything of the Insect species—Fleas, Roaches, Mosquitoes, Ants, Bugs.

IT KILLS INSTANTLY.

What is peculiarly surprising in regard to this article is, that notwithstanding its instant death to insects, it is perfectly harmless to mankind and domestic animals. It can be inhaled or eaten with impunity. It bears the testimony of eminent distinguished chemists that it is

FREE FROM POISON.

No article has ever given such positive satisfaction in its use. Its reputation is well known. It is easily and readily used—Directions accompany each flask. Beware of counterfeits.

The genuine has the signature of E. LYON, and the private stamp of DEAS BAKES & Co. Anything else of this kind is an imitation or counterfeit. Any druggist will procure the genuine if you insist you will have no other.

Sold by all druggists and dealers on Pacific Coast.

MEXICAN MUSTANG LINIMENT.

It is an admitted fact that the Mexican Mustang Liniment performs more cures in 24 hours, on man and beast, than any article ever discovered.

No compound has ever been invented so useful and efficacious in curing
RHEUMATISM, STIFF & WALK JOINTS, SORE THROAT, BRUISES, EARS ACHING, FRESH CUTS OR WOUNDS, SPRAINS, SWELLINGS.

Or any other complaints requiring external application.

FOR HORSES.

It is an indispensable and valuable remedy in all cases of Spavin, Splint, Ring-bone, Wind-galls, Bruises, Strains, &c.

It should be kept in every house, camp and stable. Accidents will occur. Promptness is efficacy.

All genuine is wrapped in steel plate engravings, bearing the signature of G. W. Westbrooke, Chemist, and the Private U. S. Stamp of DEAS BAKES & Co. over the top.

An effort has been made to counterfeit it with a cheap stone plate label. Look closely!

Sold by all Druggists and Stores in every town and mining camp on the Pacific Coast.

OUR MINERAL LANDS.

New as the Government of British
Columbia is to the important work of
dealing with the mineral lands of the
country, it may be well to derive what
profit we can from the experience of
others. Our attention has just been
drawn to an article in the Toronto
(Ontario) Leader, in which a contrast
is drawn between the development of
the mineral lands on the north (Can-
adian) shore and those on the south
(American) shore of Lake Superior.
The Leader alludes to the utter ab-
sence of any policy on the part of the
Canadian Government in dealing with
these mineral lands, than which, it
says, there is perhaps no richer min-
eral country in the world, abounding,
as it does, in copper, silver and lead;
and yet this rich region still remains
almost untouched, while the south
shore shows an invested capital of
\$40,000,000. There is in this single
fact, adds our trans-continental con-
temporaries, enough to make us hold
down our heads with shame. Then
follows a description of the fickle,
and illiberal so-called policy pursued
by the Canadian Government, with its
royalties and restrictions. "It cannot,"
says our contemporary, "but be of ad-
vantage to know by what means such
excellent results have been accom-
plished on the southern side of the
Great Lake. To commence with, there
has been a settled policy, and that
policy is this:—1st. The immediate sur-
vey of the territory into mile sections,
each section containing 640 acres and
capable of sub-division into quarter
sections, each containing 160 acres.
2nd. The establishment of agencies at
convenient points, where maps could
be examined, reliable information
obtained, and purchases, free from
all restrictions and royalties, effected
without limit by the first applicant at
the rate of one dollar and a quarter
per acre. 3d. The imposition by the
State of a tax of one cent per acre in
addition to the tax subsequently im-
posed by the municipalities for local
purposes. The policy was found to
offer sufficient inducements to explor-
ers to go upon the lands in search of
rich locations. Having found these
they were readily enabled to enlist the
active co-operation of capitalists in
the great money centres of the coun-
try, and thus were formed the great
mining companies by which the aston-
ishing development of the south shore
has been effected." We would respec-
tfully commend the above to the
earliest attention of our own Govern-
ment. The entire question is compar-
atively new in this Colony. But, upon
the principle that prevention is better
than cure, it would surely be true wis-
dom on our part to seek to avoid the
mistakes of others, by the early ad-
option of some fixed, enlightened and
liberal system of dealing with the mi-
neral lands of this country. We re-
gret that we are unable to detect, in
any attempt which has already been
made in this direction, a liberal dispo-
sition on the part of the Government.
There has, on the contrary, been a
disposition manifested in the two or
three attempts which have been made
to commence the development of our
mineral wealth which is by no means
of favorable augury. The same old,
antiquated, mistaken policy of exact-
ing every possible tax and imposing
every conceivable restriction and vexa-
tious interference with the manner
in which capital shall be employed,
which has been productive of so much
injury in other countries, has made
its appearance thus early in our own.
That unaccountable nervous fear that
somebody will make money out of
the Government at every step, and

cause it to view with suspicion every
attempt to make a beginning in the de-
velopment of the still dormant wealth
of this Colony. To nip this evil in
the bud ought to be the aim of pres-
ent legislation. We cannot do better
than conclude the present article by
giving the following extract from a
very able speech, delivered by the hon.
George Brown, at the Reform Banquet,
held at Toronto, on the 2d ultimo:—
"The earnest desire at this moment
among our people to develop the agri-
cultural and mineral resources of our
country ought to have been met by
our Government in the most frank and
liberal spirit. The narrow feeling
which has been shown in the propos-
ed mode of dealing with our public
lands has not, I am sure, been partici-
pated in by the Legislature. Tell me
you are afraid to let your mineral
lands go into the hands of actual set-
tlers for fear they should find a prize
for fear the Government might not
be able to exact from them some share
of the gold or copper or lead they may
discover! Is not the true policy to
encourage actual settlers to go in and
make the best of their possessions? And
what better accident could happen to
Canada than that some lucky
fellows should be eminently success-
ful, were their gains to be counted even
by millions? Our true policy is to
get our lands, agricultural and min-
eral, into the possession of actual set-
tlers; and if they get rich by them,
so much the better for us all. The true
policy is to make our people individ-
ually prosperous, and then the Govern-
ment will be prosperous too. (Hear.)
To restrain people from settling, for
fear they should make too much mon-
ey by it, is one of the most ridiculous
things that any government ever at-
tempted."

UP COUNTRY SUMMARY.

(From the Yale "Examiner.")

The road traffic from Yale is becom-
ing very brisk; teams and trains
starting daily for Cariboo and some
for Big Bend. M. Anguste started
from Okanagan with a flock of six or
seven hundred sheep in fine condition;
he had reached Grand Prairie about a
fortnight ago. There are now at Ok-
anagan, two or three thousand sheep,
and a large quantity is expected from
Oregon. A H. B. Co's team came in
to Yale on Friday from Kamloops,
bringing about \$4000 in dust. There
are about twenty-five men mining on
Tranquille River, making from two to
five dollars a day. A saw mill and a
grist mill are being built for Messrs.
Mackintosh and Fortune. These mills
will supply the wants of the Thomp-
son River and Lake country, and sev-
eral parties have taken up land in con-
sequence. Mr. Frank Grazier arrived
from Osoyoos on the 11th inst. The
news is unimportant. The stock had
wintered well and were in fine
condition. Simpson & Co. were to
have started, on the 10th inst., with
250 steers, raised at Osoyoos, for the
Cariboo market; they were in splen-
did condition. The farmers had com-
menced ploughing.

ASSAULT.—The Hon. R. T. Smith
committed an assault of a very ag-
gravated nature upon the Hon. Mr.
Robson, while the latter was return-
ing from the Legislative Council on
Monday. The case had a hearing be-
fore the Magistrates yesterday; but
as there were only two Magistrates
on the Bench, and one was in favor
of conviction and the other in favor
of sending the case to the Supreme
Court, it will be re-heard at 11 o'clock
to-day, before a full Bench.

ACCIDENT.—On Monday morning
a Kanaka employed at Capt. Stamp's
mill, Burrard Inlet, had his left foot
seriously injured. He was at work in
the mill when one of the passing lum-
ber cars caught his foot, smashing it
in a most shocking manner. The in-
jured man was brought to town in a
canoe and is now in the Hospital.

FROM YALE.—The str. Lillooet,
Capt. Fleming, arrived from Yale on
Monday evening. She brought a num-
ber of passengers, among whom were
Messrs. J. Armstrong, A. Rose, of the
Yale Examiner, and Mr. J. Black.

THE NEXT MAIL.—The str. Pacific
was announced to sail from San Fran-
cisco, for Portland and Victoria, yes-
terday.

AYER'S

MEDICINES.

THE peculiar taint or
infection which we
call SCROFULA lurks
in the constitutions of
multitudes of men. It
is either produced or is
produced by an en-
feebled, vitiated state
of the blood; wherein
the vital forces in their
vigorous action, find
leaves the system to
fall into disorder and
decay. The scrofulous contamination is va-
riously caused by mercurial disease, low
living, disordered digestion from unhealthy
food, impure air, filth and filthy habits,
the depressing vices, and, above all, by
the venereal infection. Whatever be its
origin, it is hereditary in the constitution,
descending "from parents to children unto
the third and fourth generation;" indeed, it
seems to be the rod of Him who says, "I will
visit the iniquities of the fathers upon their
children." The disease originates in the
various names, according to the organs it
attacks. In the lungs, Scrofula produces
tubercles, and finally Consumption; in the
glands, swellings which suppurate and be-
come ulcerous sores; in the stomach and
bowels, derangements which produce indi-
gestion, dyspepsia, and liver complaints on
the skin, eruptive and cutaneous affections.
These, all having the same origin, require the
same remedy, viz., purification and invigora-
tion of the blood. Purify the blood, and
these dangerous distempers leave you. With
feeble, foul, or corrupted blood, you cannot
have health; with that "life of the flesh"
healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most effectual an-
tiseptics that medical science has discovered for
this afflicting distemper, and for the cure of
the disorders it entails. That it is far superi-
or to any other remedy yet devised, is
known by all who have given it a trial. That
it does combine virtues truly extraordinary,
in their effect upon this class of complaints,
is indisputably proven by the great multitude
of publicly known and remarkable cures it
has made of the following diseases: King's
Evil, or Glandular Swellings, Tumors,
Eruptions, Pimples, Blotches and Sores,
Erysipelas, Rose or St. Anthony's Fire,
Salt Rheum, Scald Head, Coughs from
tuberculous deposits in the lungs, White
Swellings, Debility, Dropsy, Neuralgia,
Dyspepsia or Indigestion, Syphilis and
Syphilitic Infections, Mercurial Diseases,
Female Weaknesses, and, indeed, the whole
series of complaints that arise from impurity
of the blood. Minute reports of individual
cases may be found in AYER'S AMERICAN
ALMANAC, which is furnished to the druggists
for gratuitous distribution, wherein may be
learned the directions for its use, and some
of the remarkable cures which it has made
of the most obstinate cases. This we now
offer to the public under the name of Ayer's
SARSAPARILLA, although it is composed of
ingredients, some of which exceed the best
of Sarsaparilla in alterative power. By its
aid you may protect yourself from the suffer-
ing and danger of these disorders. Purge
out the foul corruptions that rot and fester
in the blood, purge out the causes of disease,
and vigorous health will follow. By its pecu-
liar virtues this remedy stimulates the vital
functions, and thus expels the distempers
which lurk within the system or burst out
on any part of it.

We know the public have been deceived
by many compounds of Sarsaparilla, that
promised much and did nothing; but they
will neither be deceived nor disappointed in
this. Its virtues have been proven by abun-
dant trial, and there remains no question of
its surpassing excellence for the cure of the
afflicting diseases it is intended to reach.
Although under the same name, it is a very
different medicine from any other which has
been before the people, and is far more ef-
fectual than any other which has ever been
available to them.

AYER'S

CHERRY PECTORAL.

The World's Great Remedy for
Coughs, Colds, Incipient Con-
sumption, and for the relief
of Consumptive patients
in advanced stages
of the disease.
This has been so long used and so uni-
versally known, that we need no more
than assure the public that its quality is kept
up to the best it ever has been, and that it
may be relied on to do all it has ever done.

IN BANKRUPTCY.

In the Supreme Court of Civil
Justice of British Columbia.

WHEREAS a petition for adjudication of
Bankruptcy, bearing date the third day
of April, A. D. 1868, hath been duly filed
against WILLIAM HENRY LADNER, former-
ly of French Creek, Big Bend, now of New
Westminster, British Columbia, Dealer and
Chapman, and having been duly proved
in Bankruptcy, is required to surrender himself to
the Honorable Matthew Baillie Begbie, one of
Her Majesty's Commissioners of the Court of
Bankruptcy, on Monday, the 13th day of Ap-
ril, and on Monday, the 4th day of May next,
respectively, at 1 o'clock p. m., at the Court
House, New Westminster, and make a full
discovery and disclosure of his estate and ef-
fects, when and where the Creditors are to
come prepared to prove their debts, and at
the first sitting to choose Assignees, and at
the last sitting the Bankrupt is required to fi-
nish his examination.

All persons indebted to the said Bankrupt,
or that have any of his effects are not to pay,
or deliver the same into the hands of
Pooley, the Official Assignee, whom the said
Commissioner has appointed.

WEDNESDAY, APRIL 22, 1868.

LEGISLATIVE COUNCIL.

MONDAY'S SITTING.

Council met at one o'clock.

ORDERS OF THE DAY.

The hon. the Colonial Secretary in-
troduced the Estimates of the reve-
nue and expenditure for 1868. He said
that the Estimated expenditure was
\$572,000, and estimated revenue \$575,
000, and that he believed it would be
found that the revenue for 1868 would
exceed rather than fall short of the
Estimates. Hitherto, unfortunately,
the reverse had been the case; but in
making out the Estimated Revenue
for the present year every item had
been put down at the lowest possible
figure. In order to show the basis of
calculation, and to satisfy the Council
that the expectations of the Govern-
ment were not unreasonable or vision-
ary, he went over a number of items
in the customs revenue receipts, show-
ing that although those receipts fell
far short last year, that circumstance
was mainly attributable to the large
stocks of goods which were in Victo-
ria at the time of Union, and which
escaped duty of Customs. He stated
that for the first three months of 1867
the duties received only amounted to
\$27,000, whereas for the correspond-
ing months of the present year they
amounted to \$80,000. This he took to
be a clear indication that the cause
of the falling off of last year's cus-
toms revenue was rapidly disappear-
ing. Indeed he believed he was cor-
rect in saying that, with the excep-
tion of the article of spirits, the free
goods were now nearly exhausted.

With regard to the article of spirits, the free
goods were now nearly exhausted.
There had unquestionably been a ser-
ious loss of revenue. The duties col-
lected upon spirits imported into the
mainland alone, in 1866, amounted to
\$35,352, whereas the duty collected
upon spirits imported into the United
Colony in 1867 amounted to only \$4,
067. The stock of spirits found in
Victoria at the time of Union was
not yet exhausted, but he believed it
would be with the present year. On
almost all other descriptions of goods,
which, during last year, were consum-
ed duty free upon Vancouver Island,
duty would be paid this year. And
he felt confident, therefore, that the
revenue from that source would ex-
ceed the estimates for 1868. The Es-
timates, so far as the expenditure was
concerned, had been framed, it would
be found, with the strictest regard to
economy, consistent with the effi-
ciency of the public service. It might
appear to some, and especially to those
unacquainted with the circumstances
of the colony, that the expense of car-
rying on the Government was still
out of proportion to the population;
but it must be remembered that, al-
though the population was small, it
was scattered over a large country.

The Estimates were then laid on
the table, ordered to be printed, and
placed on the orders of the day for
Wednesday.

On motion to go into Committee of
the Whole on the Report of the Se-
lect Committee upon the Supreme
Courts Bill, a lengthy discussion arose
respecting the mode of procedure.
The hon. the Attorney General evin-
ed a disposition on the part of the
Government to get rid of the Report
by a summary process, and stick to
the Bill manufactured in Downing-
Street, and it became evident to the
House that the Bill reported from the
Select Committee was in danger of
being killed by a Government vote,
although an assurance had been given
upon a previous occasion that the Su-
preme Courts Bill would not be treat-
ed as a Government measure. Taking
alarm at the new and unexpected at-
titude assumed by the Government,
the hon. Mr. Helmcken moved, second-
ed by the hon. Mr. Robson: That the
consideration of the subject be post-
poned until Wednesday, in order that
there might be a full House. After
some discussion the Resolution was
carried.

The House went into Committee of
the Whole upon the Petition from S.
W. Herring. After an explanation
from the hon. the Chief Commis-
sioner, and a lengthy debate, the com-
mittee, on motion of the hon. Colonial

Secretary, rose, and the Petition was
accordingly dropped.

The hon. Mr. Helmcken asked
Whether it be the intention of the
Executive to open the Eagle Pass
Road during the present season. He
alluded to the importance of opening
that pass, if only by means of a pack-
mule trail, as it would greatly facili-
tate communication with the Columbia
and Kootenay country, and enable
mail communication to be kept up
much more cheaply, and place our
merchants in a position to command
the trade of the mines. He believed
the mines in that section of the
country were by no means "played
out," but would yet add greatly to
the productive wealth of the country.

The hon. the Chief Commissioner
replied that it was not the intention of
the Government to undertake that
work during the present year. He
fully agreed with nearly everything
that had been said by the hon. Mr.
Helmcken in regard to it, and the
pass in question possessed an addition-
al interest from the fact that it would
doubtless be the route of the Overland
Road to Canada. The length of trail
requiring to be made would not fall
under thirty miles, and the cost of
constructing a passable mule trail
would, probably not be less than \$10,
000.

The hon. Mr. Helmcken then moved,
seconded by the hon. Mr. Robson.
That this Council would recommend
to the consideration of the Legislat-
ure the expediency and advisability of
opening at least a trail (passable for
laden mules) through Eagle Pass.

The hon. Mr. Robson spoke in sup-
port of the Resolution. He said the
hon. the Chief Commissioner had men-
tioned that the great trans-continent-
al road would go through the Eagle
Pass. Some might be disposed to
think this an objection to immediate
action on the part of the local Gov-
ernment, as the road would be con-
structed by the central Government
at Ottawa. He took a different view
of the subject, however. To construct
a bridge path would be little more than
to survey the route, and would act as
the pioneer to the overland road.
There were other, and more practical
reasons, however, why that Pass
should be immediately opened. It
would enable supplies, raised on the
fertile lands of the Shuswap and Kam-
loops countries, to be sent over to the
Columbia River, and taken down as
return cargo by the steamer, or there-
by not only developing our agricultural
resources, but rendering it impossible
for our American neighbors to com-
pete with our own people for the sup-
ply of those mines.

The Resolution was passed without
opposition.

TUESDAY'S SITTING.

House met at 3 o'clock.

ORDERS OF THE DAY.

The Committee of the Investment,
Savings, and Loan Society Bill was
postponed until Wednesday.

The Trustees' Relief Bill was read
a second time.

The hon. Mr. Robson's motion, ask-
ing for a tax upon unoccupied lands
which have been alienated from the
Crown, for local improvements, was
postponed.

The Bill to Incorporate the Society
of the Sisters of St. Ann passed
Committee with a few trifling amend-
ments and the third reading was fixed
for Wednesday.

House adjourned till 1 o'clock to-
day.

CONFEDERATION MEMORIAL.

The following is a copy of the
Memorial sent to the Governor, by
the Committee appointed at a public
meeting held in this city, on the 6th
inst.:

To His Excellency Frederick Seymour,
Governor and Commander in Chief of
British Columbia and its dependencies,
Vice Admiral and Ordinary of the
same, etc., etc., etc.

May it please your Excellency:
The Memorial of the undersigned,
members of a Committee appointed
at a public meeting held at New
Westminster, on the 6th inst., humbly
showeth:

1st. That the inhabitants of the
city and district of New Westmin-
ster, and your Memorialists have rea-
son to believe, the people throughout
the colony generally, earnestly desire
the immediate admission of British
Columbia into the Dominion of Cana-
da, upon fair and equitable terms.

2d That as little practical advan-
tage could accrue to this Colony from
union with Canada without overland
communication, the completion of the
Overland Road from Lake Superior
to Yale within two or, at the utmost,
three years from the date of such
union, should be insisted upon as a
primary condition.

3d. Your Memorialists do not con-
sider it necessary to enumerate in de-
tail the conditions which British Col-
umbia would be entitled to insist up-
on, in entering the Confederation, as
that duty would more legitimately de-
volve upon the Legislative Council.
They will, therefore, content them-
selves with the general remark that
this Colony should enjoy its fair share
of representation in the central Gov-
ernment, that the Dominion should
assume the public debt, and should
grant such subsidy as may be neces-
sary to make ample provision for the
expenses of conducting the Local
Government.

4th. Your Memorialists would there-
fore humbly pray that Your Excellen-
cy will be graciously pleased to bring
the subject of the immediate admis-
sion of British Columbia into the Do-
minion of Canada before the Legislat-
ive Council in such manner as to your
Excellency may seem most expedient
in order to ensure the necessary steps
being taken during the present Ses-
sion, in conformity with the provi-
sions of the one hundred and forty-
sixth section of "The British North
America Act, 1867."

And your Memorialists, as in duty
bound, will ever pray, &c., &c.

(Signed) JOHN ROBSON,
HUGH McROBERTS,
EENEZER BROWN,
J. T. SCOTT,
WILLIAM CLARKSON.
New Westminster, April 17th 1868.

TELEGRAPHIC SUMMARY.

EUROPE.

(Dates to 18th.)

The Journal de St. Petersburg says
the Emperor of Russia has consented
to grant delay in the payment of the
purchase money of Alaska. The great
labor mass meeting was held at St.
John's Hall, on the 16th, under the
presidency of Earl Russell. Resolu-
tions were adopted demanding the
disendowment of all religious sects in
Ireland; declaring that the Tories
are keeping in office after the recent
vote of the House of Commons against
them, and have violated the constitu-
tional usage, and that they should
give place to Gladstone and the lead-
ers of the majority in Parliament.
Warrants have been issued for the ar-
rest of ex-Governor Eyre, of Jamaica,
on the charge of illegally proclaiming
martial law during the disturbance
in that island. It has been widely
rumored to-day (17th) that advices
have been received from Abyssinia
that the captives have been released
by King Theodore, and that the war
is over. The dispatch from General
Napier does not confirm the rumor,
although the news is favorable to the
hopes of the expedition. It has ad-
vanced to within sixty miles of Mag-
dalla. The troops are in good spirits.

EASTERN STATES.

(Dates to 17th.)

Stanton has written a letter to Sen-
ator Cameron, declaring that no con-
sideration can induce him to assume
the duties of the Treasury Depart-
ment or remain in the War Depart-
ment longer than will be required for
the appointment of a successor. The
Tribune's Omaha special says the Union
Pacific Railroad crossed the summit
of the Rocky Mountains on the
17th inst.

CANADA.

(Dates to 17th.)

All the correspondence which passed
between the Fenian lodges of New
York and Montreal has been seized
by the Government. A grand exodus
of Irishmen from Canada has com-
menced in consequence. Over four
hundred persons are implicated in
this correspondence. It is reported
that an international case will be

made, as the documents discovered
tend to show that the murder of Mc-
Gee was plotted in New York and
approved by the committee in Mon-
treal.

ROBBERY.—Last Sunday forenoon
the store of Mr. Eickhoff, on Colum-
bia-street, was broken into while the
family were at church. The burglar,
after making an ineffectual attempt
to set fire to the wall-paper, made his
exit unseen, carrying off \$125 in sil-
ver. No clue has as yet been obtain-
ed to the thief.

FROM VICTORIA.—The str. Enter-
prise, Capt. Swanson, arrived from
Victoria last evening. She brought
130 tons of freight and about 150
passengers, amongst whom were the
Hons. Messrs. Pemberton and Wal-
ken, and F. H. Lamb, Esq.

LATER FROM YALE.—The str. On-
ward, Capt. Irving, arrived from Yale
yesterday. There is no later news
from the interior. Barnard's Cariboo
Express not having arrived in Yale.

BIRTH.
At the Camp, New Westminster,
on the 16th inst., the wife of Mr. R.
Woffenden, of a son.

MYNHEER Paul Dietrich, of Mil-
waukee, feeling his earthly tabernacle
stayed with troubles to be expelled,
decided, after full enquiry and inves-
tigation, to employ Ayer's Pills. In
his haste to purify his Dutch stomach,
he mistook the directions, 2 to 7, and
swallowed 27 for a dose. This created,
of course, an appalling internal
rebellion. But Paul went through
the fight like a hero, and came off vic-
tor at last, with a renovated constitu-
tion which he proudly exhibits as
proof of the wisdom of his choice.
He advises everybody to take Doct.
Ayer's Pills, but kindly advises his
friends, who are ambitious of follow-
ing his example, to "be sure and take
the right notion."—Minneapolis Telegraph

HOLLOWAY'S OINTMENT AND PILLS.—Out-
ward infirmities—Before the discovery of
these remedies, many cases of sores, ulcers,
&c., were pronounced to be hopelessly incur-
able, because the treatment pursued tended to
destroy the strength; it was incompetent to
preserve, and to expatriate the symptoms it
was inadequate to remove. Holloway's Pills
exert the most wholesome powers over un-
healthy humors, without debarring the
patient from fresh air and exercise, and thus
the constitutional vigor is husbanded; while
the most malignant ulcers, abscesses, and skin
diseases are in process of cure. Both Oint-
ment and Pills make the blood richer and purer,
instead of permitting it to fall into that
poor and watery state so fatal to many labor-
ing under chronic derangements.

IN BANKRUPTCY.

WHEREAS a petition for adjudication of
Bankruptcy, bearing date the 21st day
of March, 1868, hath been duly filed against
Thomas Roper, of Four Mile Prairie, British
Columbia, out of business, formerly carrying
on business at the 108 Mile House, British
Columbia aforesaid, in partnership with Wil-
liam Roper, under the name and style of
W. and T. Roper as Publicans and Farmers,
and he, having been declared a Bankrupt,
required to surrender himself to the Hon.
Matthew Baillie Begbie, one of Her Majesty's
Commissioners of the Court of Bankruptcy,
on the 31st day of March instant, and the
28th day of April next, respectively, at five
o'clock in the afternoon, at the Court House,
New Westminster, and there make a full dis-
covery and disclosure of his estate and effects,
when and where the creditors are to com-
pare to prove their debts and at the last
sitting the Bankrupt is required to finish his
examination.

All persons indebted to the said Bankrupt,
or that have any of his effects are not to pay
or deliver the same but to Charles Edward
Pooley, the Official Assignee, whom the said
Commissioner has appointed.

W. S. SEDRIGHT GREEN,
Solicitor for Bankrupt.

DISSOLUTION OF PARTNERSHIP.

NOTICE is hereby given that the Copart-
nership heretofore existing between Sem-
len and Parke, of the Bonaparte House, Brit-
ish Columbia, has been this day dissolved by
mutual consent. All outstanding accounts
are requested to be forwarded to Semlen &
Sanford, by whom the business will in future
be conducted.

ALL OVER

PLANTATION BITTERS.

Dyspepsia, with its symptoms, Headache, Heartburn,
Feverish Lips, Bad Breath, Sallow Complexion, &c.,
can be cured by using PLANTATION BITTERS.

This is the most successful tonic of the age. Young,
middle-aged and old, are delighted with its effects.

The first trial always has a marked good effect.

No change of diet is necessary. Eat all you wish, of
the best and most nutritious food.

It is the greatest cure ever known for an overloaded
and distended stomach, which it relieves in a few mo-
ments.

We know that we have the best and most popular medi-
cine in the world. We are not afraid to show what it is
composed of.

PHYSICIANS ARE COMPELLED TO RECOMMEND IT.

CALIFORNIA BARK has been celebrated for over two hundred
years, and was sold during the reign of Louis XVI.,
King of France, for the enormous price of its own weight
in silver. It is remarkable for Dyspepsia, Fevers, Weak-
ness, Constipation, &c.

CASCABELLO BARK.—For Diarrhoea, Colic, and diseases
of the stomach and bowels.

DANDELION.—For inflammation of the LIVER and BIL-
lial Affections.

CHAMOMILE FLOWERS.—For indigestion and
LAVENDER FLOWERS.—Aromatic, stimulant and toni-
cally invigorating in nervous debility.

WINTERGREEN.—For Rheumatism, &c.

ANISE.—An aromatic carminative; creating flesh,
muscle and milk; much used by mother nursing.

Also clove-buds, orange, caraway, coriander, make-
root, &c.

They are recommended by the highest medical author-
ities, and are warranted to produce an immediate ben-
eficial effect. They are exceedingly agreeable, perfectly
pure and harmless.

NOTE.—Any person pretending to sell Plantation
Bitters in bulk or by the gallon is a swindler and im-
poster. It is put up only in our log cabin bottle. Be-
ware of bottles rubbed with imitation deleterious stuff,
for which several persons are already in prison. See that
every bottle has our United States stamp over the cork
unimpaired, and our signature on steel plate side label.
Sold by respectable dealers throughout the habitable
globe.
